LOWER RATES ON GLOVES

Hosiery Lumber Demanded—He Calls
Attention to the Party's Pledge.
Threatens Veto if Conference
Disregard His Wishes.

Washington, July 30.—The Payne-
Aldrich tariff bill stands completed. An
agreement on all disputed points was
reached yesterday afternoon and at 4:55
p. m. the conference report was signed
by the Republican conferees.

It will go to the House to-day and
be voted on by that body on Saturday.
The Senate will begin consideration of
the measure as agreed to by the con-
ference on Monday.

Washington, July 30.—As a result of
the interview which members of the
conference committee of the two Houses
of Congress had with President Taft
late Wednesday night, the president yester-
day notified the conference committee
in writing that he could not accept a
rate exceeding \$1.25 on rough lumber,
and that he would insist upon the Sen-
ate rate on gloves and hosiery.

When the president's visitors presented
the compromise figures on lumber,
gloves and hosiery, which had been
agreed upon by the committee, he took
their memorandum, saying he would give
it more deliberate consideration than he
could at that time bestow upon it.

Instead of communicating his views
to the individual members of the com-
mittee, he put them in writing and they
were read yesterday to the conference.
In polite but plain language, the president
told the conferees that he felt the
pledges of the party required this.

The transmission of the president's
views had the effect of reopening all of
these subjects and much doubt at once
arose in the minds of the conferees as
to when the end might be reached. Mr.
Aldrich told some of the Democrats that
probably they would not be summoned
again before Saturday or Sunday. Other
members of the conference expressed
even more doubt as to the length of
time that would be required to reach an
understanding.

Some of the senators are exceedingly
tense in their views in favor of a
high duty on lumber and as it was very
difficult to get them to yield anything,
there is some apprehension that there
will be great difficulty in bringing them
to the president's views. On the other
hand, it is declared that it would be
as difficult to get through the House a
\$1.40 rate, as it would be to get through
a rate of \$1.30 and the firm stand taken
by the president has had the effect of
stiffening the determination of the low
lumber element.

The plan to have the conference re-
port submitted to the House to-day will,
of course, fall through, and it seems
now probable that it will not be re-
ceived before next Monday, if then.

In his communication to the com-
mittee the president reiterated his demand
that hides be kept on the free list and
that rates on leather and leather goods be
shaded below the House figures, as
has heretofore been agreed upon.

There were Democratic suggestions
that if an agreement was not reached
soon Congress should adjourn until some
time in the fall to permit the Republi-
cans to get together.

The president's letter has created a
considerable sensation among the con-
ferees. The exact terms of the letter
have not been given out, but it is regard-
ed as an ultimatum from him and is in-
terpreted as meaning that if his terms
are not complied with, he will veto the
bill when it reaches him.

After giving the figures which he is
willing to concede on lumber, gloves,
hosiery, leather and leather goods, he
states that he has given much considera-

tion to the subject and has reached the
conclusion that it would be quite unwise,
if not impossible, to make further con-
cessions.

The deadlock over these provisions has
brought to the surface the fact that there
is a very sharp difference of opin-
tion between President Taft and Speaker
Cannon.

FRYE'S DAM BILL AGAIN.

The Mention of It Amuses The Sen-
ate.

Washington, July 30.—The Senate
spent half an hour yesterday discussing
the question whether a unanimous con-
sent agreement. The point was raised by
the presentation by Senator Bailey of a
request for the cancellation of the agree-
ment to transact no general legislation
while the conference report on the tariff
bill was pending. Mr. Bailey based his
request upon the fact that there was a
large number of local measures on the
calendar, to which no objection was ex-
pected, and which he said might as well
be passed now as at any time. Objection
was made by a number of senators,
and Mr. Bailey withdrew his proposi-
tion.

During the discussion it appeared that
one of the measures which it was de-
sired to have taken up was an omnibus
bridge bill, which was being pressed by
Senator Frye. Senator Nelson, asked
whether if Mr. Bailey's request should be
granted the bill known as the South
Carolina dam bill would be included.

Mr. Frye replied: "It is very impor-
tant that that dam bill should be passed."

The remark of the senator from
Maine came so unexpectedly that at
12:15 p. m. the Senate adjourned until
tomorrow, when the urgent deficiency
appropriation bill will be taken up.

NEW SYSTEM OF INSURANCE.

Paul Morton Proposes It to Insurance
Fraternity.

New York, July 30.—Paul Morton,
president of an insurance company, ad-
dressed a meeting of 900 insurance men
here Wednesday night, spoke briefly of
a new system of insurance which he
believes will be adopted soon in this
country, whereby the poor and those of
moderate means will be enabled to buy
their own homes, while at the same time
they protect their families against loss
in the event of early death.

"The insurance companies of this
country," said Mr. Morton, "must broaden
their field and make themselves of
wider usefulness to the people. We
must protect them and assist them in
life as well as in death. I look next for
a scheme of insurance which will make
it possible for every policyholder,
through a series of small monthly pay-
ments, to own his own home while pro-
viding for his family after his death."

REYES TOOK \$20,000,000?

Report from Colombia—Also Said
to Have Carried off Jewels.

from New Orleans, the Sun says: "The
steamship Antilles, from Cartagena,
brings further particulars of the Colom-
bian revolution. The entire republic,
according to the accounts of those on
board, is in a state of excitement and
revolutionary turmoil. The popular
story is that President Reyes escaped to
England in an American vessel with
\$20,000,000 in gold and a bag containing
millions of dollars of jewels. Reyes
was in Santa Maria for a week before
he could get a vessel to carry away all
this plunder. He sailed at midnight."

REWARDS TO CANADIANS

Land for Repulsers of Fenian
Invasion

160 ACRES FOR EACH ONE

In Nova Scotia—Attempt to Conquer
Dominion Recalled—500 Men Tried
to Cross the Border from
Eastport, Maine.

Halifax, N. S., July 30.—In recog-
nition of their services at the time when
Canada was threatened with an invasion
by the Fenians, the Canadian govern-
ment is about to award to the 175 living
members of the impromptu "army" of
this city, grants of 160 acres of land
each. The grants are all from the public
lands of the Northwest. It is under-
stood that the majority of the grantees,
although most of them are well ad-
vanced in years, expect to remove at
once to the Northwest to occupy and
cultivate their land. The announcement
that the grants are to be awarded again
brings into discussion the attempted
Fenian invasion, which occurred in 1866,
when a band of Irishmen under the name
of the Fenian Brotherhood started out
from the United States to invade Can-
ada, with the ultimate object of secur-
ing freedom for Ireland. Although the
five hundred armed men who came to
the border town of Eastport, Me., never
got into Canada, the people of the mari-
time provinces, against whom this sec-
tion of the movement was particularly
aimed, were considerably agitated over
the proposed invasion. British battle-
ships were sent to patrol the boundary
waters, and the militia of the province,
which had not then been confederated,
was commissioned into active service to
repel the expected attacking forces. It
is the living members of the "army"
organized in this city who are now to be
rewarded.

The contingent of one thousand Fen-
ians which assembled at Buffalo, N. Y.,
succeeded, however, in gaining entrance
to Canada, and in a skirmish with the
Canadians drove them back with some
loss.

"MARTIAL LAW" IN COMMONS.

Opposition to New Rules Voted for Put-
ting Through Budget.

London, July 30.—The House of Com-
mons Wednesday night adopted the
amended procedure rules as proposed by
Premier Asquith. The principal rule is
the extension of all the powers possessed
by the chairman of the committee to
the deputy chairman, the latter now be-
ing empowered to declare closure in de-
bates. The new rules are intended to
facilitate the passage of Chancellor
Lloyd-George's finance bill. Mr. Bal-
four and other opposition leaders strong-
ly denounced the government's action,
as placing Parliament under martial
law.

NATIVE TELEGRAPH IN COLOMBIA.

Hollow Trees Giving Different Tones
When Struck, Says Explorer.

New York, July 30.—The Sun in a
dispatch from London says: Captain
Whiffen has arrived here after years of
exploration in southeastern Colombia.
Among his discoveries is a secret system
of telegraphy employed by the natives.
Hollow trees are selected of various
thicknesses, which give out high or low
notes when struck. The sound travels
from thirty to forty miles. No code is
employed, but the natives recognize the
words intended from the different musical
notes.

ing to Gov. Shafforth. The Denver

hibiting prize fighting in the state. The
state executive instructed the District

BROTHER SHOCKED AT NEWS.

Recent Letters from League President
Were in a Cheerful Tone.

Oshkosh, Wis., July 30.—The an-
nouncement of Mr. Pulliam's death came
as a shock not only to his brother, John
P. Pulliam, superintendent of the Wis-
consin Electric Railway company and of
the Eastern Wisconsin Electric Rail-
way and Light company, but to many
friends and acquaintances Mr. Pulliam
made during his visit to Oshkosh recent-
ly. J. P. Pulliam expressed the opinion
yesterday that worry and anxiety had
brought his brother to a state of tempo-
rary insanity. When Harry Pulliam ar-
rived in Oshkosh, about the first of May,
he was in a highly nervous condition and
sought complete rest. He spent the great-
er part of two weeks fishing and rest-
ing, then went to Eagle River, Wis.,
where he remained ten days. He then
returned to Oshkosh for a day before
leaving for Cincinnati. When he left
Oshkosh he appeared to have recovered
almost completely and seemed to be in
his former health. His brother in this
city has received several letters from
him since that time which were of a
cheerful tone and indicated no depres-
sion.

REASON FOR SUICIDE UNKNOWN.

Brother-in-law Says He Had Given No
Hint of Despondency.

Newville, Tenn., July 30.—George W.

left yesterday for New York. Mr. Cain
said:

"My brother-in-law wrote his sister
about a week ago, and in the letter
there was no note of discontent or de-
spondency. It is something I cannot
explain."

Base Ball Notes.

William Murray, manager of the Phila-
delphia National league club, whom the
new interests of the club seek to depose,
telegraphed to New York Wednesday
that Outfielder Maga will not be traded
for "Mike" Donlin of the New York club.
Murray sends word that while Felix Is-
man, a stockholder, wanted him to get
out, he had no intention of resigning
as manager. Until the matter of Mur-
ray's retirement has been settled by the
board of directors of the club, it is not
likely that any other move will be
made to secure Donlin.

The New York National league club
is trying to secure the services of "Nap"
Rucker, the star pitcher of the Brooklyn
club, it is said, and has offered a large
sum of money for his release. It is fur-
ther reported that Manager McGraw will
offer Rucker a salary of \$7,000 and a
bonus of \$1,000 if he wins 20 games this
year.

President Ebbetts of the Brooklyn Na-
tional club Wednesday announced that
he had secured Pitcher Dent and Infield-
er Rodmond of the Winston-Salem, N. C.,
club, Pitcher Vaughn of the Macon club
and Infielder G. Smith of the Shreve-
port team.

Manager Sullivan of the Chicago
Americans says: "We have just struck
our stride, and from now on we are
likely to make trouble for the rest. We
have been so crippled all the year, and
are now, for that matter, but we are
in far better shape than earlier in the
season. If Walsh can get back in the
game he will help us immensely. The
fact that we have been able to hit the
ball lately is what has given the team
confidence. If we continue, look out
for us."

The Pittsburgh Nationals closed the
deal for Catcher "Belle" Bridges of the
Northampton team Wednesday, and the
price was said to be \$1,500. Pittsburgh
can take Bridges any time, but it is
not expected it will do so before the
close of the season. "Tacks" DeLave,
a pitcher, has been returned by Law-
rence and is now under control of North-
ampton.

CIVIL WAR IN SPAIN

The Entire Military Force
Mobilized

ARMY CORPS AND MARINES

Rushed to Catalonia—The Situation
There Considered Alarming—Cata-
lans Ever Ready to Strike at
Spanish Authority.

Madrid, July 30.—Spain has mobilized
her entire military establishment in an
effort to meet the situation which con-
fronts her—civil war in Catalonia and
a foreign war in Morocco. It certainly
is a grave situation which she is called
upon to face. In the eyes of Europe
the internal insurrection overshadows
the conflict in Africa, notwithstanding
the fact that Spain has sustained a dis-
astrous defeat and may have to abandon
Melilla, as the decision of Premier Mau-
ra's cabinet to place the county under
martial law and employ the army to
repress the revolt or as an alternative
move to convolve Parliament may pro-
voke an extension of the revolution to a
point which would endanger the dynasty.

The entire Third and Fourth Army Corps
and the Madrid Cavalry Brigade, under
command of Prince Charles of Bourbon,
which was about to leave for Melilla,
has been sent to Catalonia. Prince Fer-
dinand of Bavaria is one of the squad-
ron commanders of this brigade. The
withdrawal of troops for the campaign
in Africa left fewer than 5,000 men in
the garrison at Barcelona and the in-
furiated mob after committing all sorts
of excesses, including the burning and
sacking of church property everywhere,
erected barricades in order to hold their
positions. Yesterday the fighting there
was of the fiercest nature and the gun-
ners were literally running with blood.
The government forces also were scat-
tered by the need of quelling outbreaks
at many detached points. The isolation
of the provinces, owing to the destruction
of railways, gave the revolutionary ele-
ment and strikers forty-eight hours in
which to cut off the arrival of reinforce-
ments. They were thus masters of the
situation. The line from Madrid to Bar-
celona is a scene of desolation. Wide
trenches have been cut across the rail-
way embankments into the country dis-
tricts. The small bridges spanning the
streets in several towns have been pulled
down. The situation is further compli-
cated by the spread of the general strike
ordered by the labor organizations of
Barcelona two days ago. The indica-
tions are that the strike will spread to
the provinces of Leyda, Gerona and Tar-
ragona, but no definite news has been
received from these points. The battle
in front of Melilla Tuesday was a dis-
astrous defeat for Spanish arms. The
Moors showed great bravery and the In-
vaders lost heavily, their casualties ex-
ceeding 1,000 officers and men killed and
1,800 officers and men wounded. The
extent of this battle was at first mini-
mized in Spain in an effort to pacify the
public, and dispatches concerning the
battle were rigorously censored. Early
reports gave the losses at a few hun-
dred. The official admission yesterday
that the killed and wounded reached in
the neighborhood of three thousand gives
the battle the importance of real war
fare, the casualties being far greater
than any engagement during the Span-
ish-American war, and exceeding some
of the most stubborn fights of the Rus-

NORDICA A BRIDE.

New York Banker Her Third Hus-
band.

London, July 30.—George W. Young,
the banker of New York, and Madame
Lillian Nordica, the prima donna, were
married at King's Weigh House church in
Grosvener square yesterday in the
presence of a few friends. Madame
Nordica wore a gown of pale gray satin,
the corsage being covered with rare old
Venetian lace. She wore no hat or veil,
but instead a chaplet of laurel leaves.
Her only ornament was a string of
pearls, a gift from the bridegroom.

James E. Carter, the secretary of the
American embassy in London, gave
away the bride and Fred Townsend
Martin of New York was best man.
Madame Nordica's sisters, Mrs. Emil Del
Castillo and Mrs. Baldwin and W.
Fenton Chaucer accompanied her to
the church. The service was that of
the Church of England. There were no
bridesmaids.

A reception was held at Claridge's af-
ter the wedding at which a number of
prominent persons were present. Later
the couple left for Southampton to em-
bark on Mr. Young's yacht for a month's
cruise. They will return to London be-
fore going to America.

CHICAGO BROILING.

Three Dead and Scores Prostrated From
Heat.

Chicago, July 30.—With three per-
sons dead and scores prostrated, Chi-
cago continued to suffer yesterday on
account of the extreme humidity and
heat. It is expected that the list of
dead will be increased before the day
is over.

Doctors from the north and intermit-
tent rains brought a little relief to suf-
fering humanity. Weather Forecaster
Cuthbertson declared that the hot wave
which has swept over the city will be
driven away and that Chicago will
again enjoy ideal summer weather by
Saturday.
